Bleachers and stadium seats checklist

Topic	Yes	No	Not Applicable	Follow-Up / Notes	Date Completed
Is the area, especially the walkways, clear of trash or debris?					
Are the trash receptacles empty and ready for the event?					
Have any plants, trees, etc., encroached into the area?					
Are the anchors that hold down the equipment secure and unimpaired?					
Are the guiderails and fall protection items secure and clear?					
Are there side railings in place protecting users on surfaces more than 30" from the ground?					
Are guardrails present on the back of the bleachers?					
Is there a bleacher inspection in the file within the last six months?					
Are there any exposed or sharp edges?					
Is there exposed hardware, such as nails, screws, bolts, etc.?					
Have any gaps in the floorboards expanded beyond their safe distance?					
Is there any water, snow, or ice?					
If wood, is the wood warped or rotting?					
If metal, is there any rust or corrosion?					
Are there any unresolved items left from previous inspection?				If yes, notify management immediately.
